Candidates are also required to have public accounting work experience, with minimum requirements varying from state to state. Applicants for CPA status must also complete a special examination on ethics, including a review of state specific rules for professional practice. All CPAs are required to take continuing education courses. The requirements vary by state but usually require 120 hours of continuing education every three years with at least 20 hours taken every year. Many states require CPAs to take an ethics course during every renewal period, with courses ranging from 2-8 hours.
